Sate of Oregon County of Marion | sa Salem, Ore, Aug 24, 190 Crippled and Many Years an Invalid Crippled and Many Years an Invalid To whom these presents shall come, Greeting.

About fourteen years since at time years of age I must with an accident which caused an injury to my spine and polvic hone which resulted in the formation of humped shoulders and hip, a shortening of the walst and displacement of internal organs, and shortening of about two inches of one limb between the knee and hip, is addition to the outward appearance of my body as above described in March 1900 I was taken with a severe attack of La Grippe from the effect of which I suffered greatly with mings and heart, and when in May 1900 I cam to and began treatment with Dr. J. F. Cook my condition was about as follows:— Gould perform no manual labor, could not stoop to pick anything from the floor. Could get about the house only with difficulty, and getting up stales was next to impossible. Could use my limbs only with difficulty and one of them was much wased. My nervous system was badly wrecked. Had couch and severe pain on lungs and heart, no appetite, could sleep only in broken spells, and in many ways suffered almost constant and indescribable agonies. In short I was as much dead as alive. Previously to my attack of La dirippe I was treated over a period of years by many physicians to no effective purpose.

My personal appearance at this time is straight in the back as anyone. My wasted into restored to normal size and but little more than half an inch shorter than the other. Have free use of my limbs and can go up stairs one foot after the other with perfect ease. My wasted is lengthening, can stoop to the floor with ease, Can get about and do pretty much any and everything other well people can do. My appetite is appended; sleep soundly and am absolutely free from pain.

Having lived in Dr. Cook's family for nearly a year I have seen much of the effect of his treatment upon others, and can truly and cheerfully recommend the Doctor and his medical skill to all in any way afficted.

The Doctor's treatment in this case was wholly confi
